Clean Code, Testing and Debugging, Modular & Reusable Components

API & Backend Integration

RESTful APIs, API Integration, Dio and Repository Pattern

UI/UX

Problem Solving
Algorithmic Thinking, Logical Debugging

Development Tools

Git, GitHub, Xcode, Android Studio, Postman, VS Code

Soft Skills

Communication Skills, Agile Development Methodologies, English, Teamwork, Presentation, Adaptability

LANGUAGES

Arabic

Native/Bilingual

English

Fluent

PROJECTS

بصيرة - Basira. ,

01/2025 – 02/2026

Comprehensive Islamic Daily Companion | Published on Google Play

- Developed a comprehensive Islamic companion app with Quran reminders, prayer times, Hadith, Azkar, and Qibla direction features.
- Implemented robust notification system across iOS/Android using BLoC pattern and remote configuration for Islamic event dates.
- Managed complete publishing lifecycle: Google Play release signing, app store metadata, privacy policy compliance, and user acquisition strategy.

Glow Me - Cosmetics Shopping App,

09/2025 – 11/2025

A modern Flutter app for browsing and purchasing makeup products.

- Built responsive UI with animations and Shimmer loading.
- Implemented Firebase auth, Cart & Wishlist with Provider, and Stripe payments.

Brain Pulse - Brain Signal Analysis App,

Flutter app for EEG analysis with AI models and real-time visualization.

- Managed patient profiles and real-time EEG data visualization.
- Integrated 6 AI models for seizure and brain activity detection.

To-Do App, *Flutter app for managing tasks with clean architecture.*

- Add/update/delete tasks with local storage (Hive/Shared Preferences).
- State management with Provider/Cubit for smooth task handling.

Cinema App, *Flutter app for discovering, searching, and favoriting movies.*

- MVVM architecture with Cubit and Provider for favorites.
- Smooth animations and Shimmer placeholders with Dio API integration.

CERTIFICATES

Nasa Space App Advanced

Flutter Course

Competition (NASA) - Flutter, Provider, Bloc/Cubit Training

iOS Mobile Development

Hands-on training in Swift & SwiftUI for iOS app development.
